| ● Java | ● HTML, CSS, JavaScript | ● PHP |
| ● React | ● Kotlin | ● MySQL, Firebase, MongoDB |
| ● Git, Github | ● Python | ● Arduino |

Projects

Digital Sea

An e-commerce website built with PHP, HTML, CSS, and JavaScript.

- Developed dynamic product pages, shopping cart, and checkout functionality using PHP and JavaScript
- Designed responsive front-end layout with HTML and CSS for mobile and desktop users
- Implemented basic **admin panel** for managing product listings and categories

Fondacioni Freskia

A donation website supporting orphans and people in need. Built with PHP, HTML, CSS, and JavaScript.

- Created pages for donations, volunteer information, and foundation projects and details
- Integrated contact and donation submission forms with backend handling in PHP
- Developed separate **admin and user views**, where admins can **add/edit projects**, and manage content
